

System phones on each desk Slican CTS-102

A choice of two models meets the expectations of many users. System phone CTS-102.IP and CTS-102.CL with a four-row back lighted display. For users convenience all models of the CTS-102 series have adjustable angle and the ability to wall mount installation.

Phone profile is created and stored in Slican PBX memory. The phone can be used immediately after connecting to network, without complicated and time-consuming programming. Excellent sound quality and ease of use make this phone an efficient tool for your daily work. Programmable buttons for all models of the CTS-102 allows the creation of unlimited individual functions, services, or create a list of mostly user contacts.

Phone looks great on your desk. Ergonomic handset and handset cord optimal length makes it ideal for everyday work. Additionally CTS-102.CL and CTS-102.IP allows you to work with the headset.

WORK COMFORT

Accordingly arranged and large buttons are making work with your phone much comfortable. Legible and back lighted LCD display with adjustable contrast, will make use of your phone more convenient. Properly shaped and light handset with high sound quality guarantees user satisfaction. Friendly menu – similar to used in mobile phones - and navigation keys allow you to use quickly full range of system phone's functions. Programmable buttons can be assigned to a number of functions, services or phone numbers.

FUNCTIONALITY

Slican CTS-102 system phone is designed to work with Slican NCP, MAC-6400, IPL-256, IPM-032, IPU-14, IPS-08¹, CCT-1668 and CXS-0424 PBX-es. Each function of phone performs user high expectations. CTS-102 will present on display what is duration of your call and how much it costs. Handy information about incoming calls, dialed numbers, missed calls allow you organize your work much more efficient. Access to the two phone books (public and private), and internal numbers list allow fast communication with selected subscriber.

MORE CAPABILITIES

CTS-102.IP and CTS-102.CL versions offer possibility of conference managing and connecting of headphones, these functions are making work with your phone much comfortable. Slican CTS-102.IP, CTS-102.CL phones are available in grey color.
